Filed: May 22, 1987
Title: NEW SUPERCONDUCTIVE COMPOUNDS, ETC.

This is in reply to the communication filed on February 6, 1990, in the above identification application. The communication has been construed as a request to withdraw the petition for the grant of a retroactive license for foreign filing under 35 U.S.C. 184 as made on March 30, 1989. The communication establishes that there were no proscribed foreign filings of the application, and therefore no violation of the statute. Accordingly, the Final rejection dated December 20, 1989, is considered to be overcome, and the petition for a retroactive foreign filing license is hereby DISMISSED. The application will be forwarded to Group Art Unit 115 for examination in due course.
